KAAN CÖMERT

ABOUT ME

Date of Birth: 22.07.1998
Birthplace: Ankara / Turkey
I am currently working as a Software Test Engineer. I think that I am active in the developer role rather than the tester role. As a tester, I have experience in Manual testing, Api Testing, Bulk Testing, Regression Testing, and since I have experience in testing stages, I developed myself both as test and development during the developing stages.
I'm currently a computer engineering master's degree student. I wrote a review article about Internet Of Senses (in English) and I am waiting for it to be published in a peer-reviewed journal and I am at the thesis stage on this subject. I am passionate about learning. I spend most of my time reading books (most of the popular science books). I follow the gaming and computer industry closely. I believe I can easily adapt to your company

SKILLS

- English (B2-C1) (Certificated)
- German (A2-B1) (Certificated)
- Python (Intermediate)
  - Numpy
  - Pandas
  - Pendulum
  - OpenCV
